Summary

Chapter 1 11

Chapter 2 - Photo Attachment 148

Note About the author 180

Dedicated to Pearl Angeli

Speak about the Meetings and the Mismatches gives life.

Aboutt

he Impossible Achieved. About the Dreams what Go If realizing each turn more. To sow, vibrate with at Wonders in God.

Also recognize the Wonders Human beings. All It is possible for who Sow love, good and beauty.

Will sing O heart The reason in to live, Will feel O sing without speack."

Fragment of a Paraguayan Guarania.

Chapter 1

= I have experienced so many landscapes, so many sighs and sprays. So many beaches and islands, so much flowery jungle of palm trees with springs, waterfalls, rivers and streams. But the longing for lontanias continued, my dreamy safe haven. I finally got to live in Rio de Janeiro where Copacabana is the top of the world, where the calm sea or giant waves I enjoy much more than in other places. Finally my restless soul rests. My ecstatic flight continues in a calm circle and my howling is no more of brokenness but of full enjoyment.

= God is a being, and every creature is also a being from the mineral, vegetable or animal world. This teaches us animism. Of the great part is the energy or vital force.

= Deep down being is always the same, what changes is personality for better or for worse, or maybe it's just a phase, a cycle.

= Be as majestic as the mountain and as deep as the sea.

So many things reconcile me with life. The contemplation of the constellations, the shooting star, the light, the full moon, the shades of dawn, the milky way, the sunset, the sound waves of the sea, the serene lake, silent listening to the song of the brook, Feel the tenderness of the butterflies, the hummingbirds, the fireflies, smile with the flowers, worship the moss, embrace stones, mountains and fields. To feel the rain and the dew, the breeze and the wind, let the soul fly in the outer space, take a strong blow of water from the waterfall on the back, the soul return a single breath, to experience the fullness in everything.

Since the birth of a search for protection, this is the cause of so much joy as of so much lack.

In a German film titled "Mama, I'm fine," a Turk tells his countryman in a humble room: "I understand you, we live scorned here. I know you surrender only out of necessity, sleep with me, I pay, so we will care for each other. " - What a desolation !! -

= A dog took the owner's quarrel and ran away from the house, on the pavement he saw that life was dangerous, returned in the dish and from each gate came dogs' sides: "not here! Not here! ". The little dog returned irrevocably to the owner pleading: "Let me stay, I will do everything to please you! ". "What a humiliation! -

= In the book: "the nausea" of Jean Paul Sartre, the character, without perspective or ambition, tells his girlfriend that he lived far away in search of future, future that he did not offer to her, he says: "I was silent , How could I take you in my arms and say what she wanted to hear from me? I had nothing to offer him. " What cowardice! -

= We donate so much, but we can never give enough, we also expect support that almost always comes to Provision.

= There is a constant cry to heaven and to earth, but joy receives those who sow favors THAT will never be enough.

= "Happy is the one who is loved in all the trials," said Charles Morgan, because without love everything loses importance.

The wind-bent tree symbolizes the earth in the Egyptian dance. Life does not bend over, without humility, without surrender to the designs, without begging, without crying, without begging with vehemence, gifts do not arrive, have to cry out and not just praise life, even being Zen, letting cycles pass with His antagonisms as calmly as possible, without suffering from the setbacks, even though he had enthusiasm, optimism, without letting himself down, even saying "everything passes and is reborn", even if the wounds of life's tortures have healed and returned body and soul To recover, come again

Another tumble and repeated experience makes us more suspicious. And a breeze will give us life to think that all is well, but the fear of what is to come after the joy, drowns what we long for, preventing us to trust fully in the life.

= All guilt is paid in triple, corn and even more! And after happy moments also comes collection, it seems an unmerited punishment or karma to be experienced to debug previous mistakes of which we are not aware to FULFILL reflection and repentance, we do not know our past and to the present we do not always take into account.

We live by repeating that we will never again go wrong and suffer, but we are fallible, hopelessly clumsy and impotent forever. There is nothing for man to do but to cling to the long dark shadow of hope until the clarity returns.

= Life has no meaning if we do not believe in God that guarantees us in the end the transcendence.

= Who judges the behavior of powerful nations who consider themselves to be entitled to exploit everyone, or else say that they will not investigate "allies": faithful subjects, and those who are not allies are seen as being Enemies.

= We are all brothers, DUDS of the creator.

= National sovereignty has the right to defend free will as long as it does not harm DIGNITY. In all areas of life there has to be ethics for you and for all.

Freedom of expression "should not give way to disrespect and rudeness, dishonesty, lies, scandal, harassment, discrimination, indifference, suffering Fallen. "

= By biography learn to admire more or devalue someone. It should be taken into account if it is worth PUBLISHING someone's life, if you add an example of behavior

Or if you are denigrating someone's image in order to offend, slander, trample, deliberately counteract HOW IT IS SO COMMON IN THE HUMAN MAJORITY.

"One should take into account the current life" of the person described because everyone learns to be better or worse with mistakes. The value of the person lies in knowing if overcome by becoming a better being.

Before talking or writing about someone, take into account the sensitivity, the modesty, the desire to live discreetly, the shame that is Traumatic

God tramples on no one, burns no one, and gives opportunity until one day if the person chops on his own will, repentance causes ardor and improve life gives strength, strength.

= Gossip is a sign of levity, of insecurity, is a waste of time, is a lack of culture, education, education. The lowly person likes to destroy the reputation of the best, and if he cannot, he tries to be laughed hysterically, the emptiness causes impotence and rage.

Most journalists have the habit of comparing everything with the Americans, of reporting more to the Americans, of putting themselves in favor of the Americans, journalists who encourage the setbacks by putting them against each other, flattering their bosses who dictate living standards for Each social class, are not authentic people, do not have as much value, are not of TRUST.

= "The leftists are called fascists by the fascists, ignorant of the bourgeois, outdated idealists, demagogues, dictators, tyrants, terrorists, right-wing lunatics in power who swim in oceans of money and poses around the world without anyone daring To speak of this, but speaks scandalously with all contempt of the few achievements of the poor who dared to power".

= "A! Of the poor who come to power and dare to live as the elite, poor people are also granted PROGRESS TO YOUR PARENTS AND FRIENDS! The wealthy yes can enjoy wealth as they please, squander luxury, no one cares. "

= "Poverty is terrible, need is depressing. Being rich is very good and everyone should be, without exaggeration, of course, but poverty, however small, is nothing charming. "

= Despisers speak with sarcasm and irony of the Bolivarian ideal and the pretensions of emerging countries to join forces to exchange trade and culture gaining more autonomy. This pretension to decentralize the world's powerful has everything to do with the Bolivarian idea that is learned in schools of Latin lands, but apparently it is not learned in Brazil.

= The greatest ignorance is the ignorance of the ideal of Simon Bolivar, there is a lack of reflection on history and on the nefarious and absorbing influence of capitalism living to work and sublimate the desires in the imposed consumerism, without any place the appeals of the soul.

= The moods are increasingly restricted to the family, everything that needs to be brotherhood, solidarity, altruism, put as a duty only the POLITICIANS. Even the lack of citizenship, respect, education, vandalism, used to be the fault of the state and not the society that includes families and citizens.

Awareness is necessary because it is DEVELOPING within the family, awareness is the basis of spirituality and without spirituality there will hardly be a better world.

= Spirituality is neither a civic duty nor a religious duty, but is to think and feel deep about love, good and beauty in contact, especially with nature and with books.

= Churches that are so powerful, little united to expand the noble ideals of brotherhood as did Jesus, Bahia, Ernesto cardinal, Elder camera and so many mystics from all over the world, especially are Francis of Assisi who preached the loving brotherhood with all creation Of God that includes the mineral world, vegetal and animal; "Sister star, brother mouse, brother pigeon, sister rain..." There would be fewer illnesses, less discrimination, less evils in all respects if instead of following religious dogmas the world was more dedicated to propagating the universal brotherhood with uniqueness, that is, in order to unify each and every creation of the creator in the equal rights of Love, care, consideration.

= The creation was conceived with greatness and without difference in the care both in the micro and in the macrocosm.

=== "to love in the way that God loves and to impregnate himself in every and every created thing in the universe".

The world is crazy. How can you feel bored with so much to do? There are so many people, animals, nature needing care and affection, there is so much to see and enjoy. Fun and doing do not lack and do something for others adds the pleasure of existing.

= The spirit transcends when it fulfills its mission to serve all as it is served by all in the creation. In this "whole" not only the family is included, but everyone by the universal brotherhood.

= The "homo sapiens" or jocosose man allows the trades of birds in captivity having so much landscape with birds flying happily in freedom. And do not stop to appreciate and thank the birds that wake up singing for living with love like no one else. Nor does the human being thank plants for their shade, for oxygen, for flowers and fruits, for the Nines, on the contrary, man uses and abuses without pity Two

Vegetables, animals, water, earth and air without the least pain, of conscience, "and considers himself the only thinking being."

= "Without thinking and without caring about THE FEELING of other beings, they buy dogs with so many of them urgently needing shelter."

= A purebred dog should be sold along with an abandoned dog. THE DOG AS THE ONLY SON SOURSES SO MUCH APEGO.

= Women suffer because they want to have children; Should adopt an orphan who is already in the world in need of care and care.

It's a matter of love. Consanguinity does not guarantee gratitude.

= "One should think about the difficulties that overpopulation causes by decreasing the quality of life for all species on the planet, deteriorating the elements of nature, becoming increasingly stressful, stormy, the individual task of building the being with so much competition and Requirement in all areas ".

= "To see Gentile does not inspire tenderness like to see animals in the nature, the sight of so many people restless, the sight of the nature soothes, many people shake the spirits".

= If the same blood type guaranteed harmony, families would not fight so much. There is more understanding between friends than between relatives.

= Families get more balanced when everyone is dedicated not only to the family circle, but rather they do something BENEFICTIVE and creative beyond their walls.

= Take into account that sports practice, while giving much profit, does not supplant the education and culture that lead more to reflect on the life.

= Both impeded the realization of the ideals of integral education of Leonel Brizola and DE Darci ribeiro! Rio de Janeiro would be

Different from the beginning if he had adopted this method interrupted by the CONTRARY AND EVIL. Integral education includes intellectual knowledge, sport and art. HUMAN SCIENCES AND NATURAL SCIENCES form and transform for the better.

= The world is crazy falling in love with yearning so aggressive, disharmonious, vulgar, heavy, repetitive and tiresome. It began with graffiti, slang, rhythms, and coarse movements.

= There are so many good painters, but few good graffiti artists, most of the graffiti looks nightmare, lugubrious, ominous, loaded and repellent affecting the interior. SEEMING MORE DISSATISFACTION THAT I PROTEST, IN PROTEST STILL LOOKS HOPE.

= To sow joy, to sing to life, to love, to dance at the feast, all this celebrates more to the Creator and sows more blessings. Just as parents like to see their children playing, so God likes to see their creatures feasting on life and the rituals in nature were implanted by God who is also festive and artist.

= I am afraid of the man for being the most false and dangerous animal.

= The military is everywhere prestigious for defending a nation. For me they are more murderers than defenders, I do not defend the weapons and the fights, it is a lot of lack of sensitivity, of compassion, of lack of brotherhood. Like most in the world it has no heart !!

= In all social classes there is much promiscuity, abuse in the pose of goods, consumption and VERY WASTE comparing unnecessary things not even beautiful being a fortune, there being "so many unfortunate in the world."

= Social classes are the product of the system. You are within this generation and even without directly blaming yourself, by having
